START WITH THE PERFECT FINISH.

Introducing Boral® PastelCote®

Boral® PastelCote® is a truly unique system that combines specially textured brick, PastelBrik®, with a masonry coating to create an exquisite exterior for your home. In addition to building character and elegance into your new home, it’s designed to last and can endure in even the harshest climates. PastelCote® actually “breathes” with the brick so it won’t crack, peel or blister. This way, you get the durability and monolithic color of the PastelCote® finish together with the structural integrity of solid brick. It’s a beautiful combination that creates a truly unique alternative to typical brick construction.

DESIGN TIP >

Combine “timber frame” style beams with PastelCote® for a relaxing and inviting “by-the-lake” feel. Add comfortable outdoor furniture, plants and accent lighting to complete the perfect outdoor room.
Strength and durability to stand the test of time.

PastelCote® is perfect for homeowners who love the look of stucco but want the benefits of brick – durability, acoustic comfort, safety and energy efficiency. With PastelCote®, you never have to worry about the exterior of your home rotting, molding or being damaged by termites. Instead, you get a distinctive, elegant effect that will last for many years to come.

PastelCote® pairs beautifully with Boral® clay pavers, which are also built for endurance. Manufactured from natural clay, they won’t mold or rot and they retain their natural color for generations – Boral® pavers never, ever fade.

Consider using two different colors of PastelCote® to highlight the architectural details of your home, adding even more character and curb appeal.
PastelCote® Mist and PastelCote® Shell
Endless ways to express your style.

Boral® PastelCote® comes in six gorgeous colors that pair with a variety of materials such as stone, cedar shakes, cast stone, pavers and slate roofs. Custom colors can be created to suit specific design needs. PastelCote® works perfectly with a wide range of architectural styles – from French countryside or cottage-style homes to rustic or traditional designs.

DESIGN TIP > 03

Combine PastelCote® with other masonry materials such as stacked stone walls or paved walkways to complement its authentic, monolithic feel. PastelCote® colors will blend beautifully with almost any other brick or stone color.
Good for the environment as well as your home.

Boral® is an industry leader in sustainable brick manufacturing and is committed to minimizing environment impact by using natural materials in production and maintaining zero-waste manufacturing facilities.
