All colors shown here are intended to show approximate color of the finish. Do not use this color chart as the final selection as colors are affected by age, texture, lighting conditions, heat and application processes. Color swatches will vary in color and finish to the actual product due to jobsite conditions and methods of applications.

Actual color selection should be made from a 1"x1" sample of each color, texture and finish made by the applicator who is actually completing the project. Master Wall manufactures 100% pure acrylic finishes, "The quality is in the paint."
