

# MAXIMUM moisture PROTECTION for exterior walls

CREATES  
A **BIG GAP** FOR  
DRAINAGE + DRYING

RECOMMENDED FOR THESE CLADDING TYPES: **WOOD FIBER CEMENT**

Slicker<sup>®</sup> HP is the first all-in-one moisture management solution to feature a detachable rainscreen and premium housewrap in a single application. The ability to detach the rainscreen from the housewrap without compromising water holdout simplifies installation and allows installers to use preferred flashing methods.

- Provides maximum protection for the wall system, eliminating the deteriorating effects of mold and rot between siding and sheathing
- Reduces the chances of premature peeling or blistering of finishes
- Commercial-grade housewrap layer has superior tear strength, surfactant resistance and water holdout capabilities
- Simplifies and reduces labor by installing rainscreen and housewrap in one easy-to-handle roll

	SLICKER HP	SLICKER 10 HP
<b>THICKNESS (SIZE OF GAP)</b>	.25 in (6 mm)	.44 in (10 mm)
<b>WIDTH</b>	39.37 in (1 m)	39.37 in (1 m)
