Topic: Applicator Training & Certificates

Quality installations are important for our entire industry. Master Wall encourages distributors to promote certification with their applicators. Of course, holding a certificate doesn't mean the applicator is an expert in the installation of our products, but it does verify that they have met the minimum requirements to receive a product warranty on their project.

Master Wall has extensive product literature available both in printed form and on our web site. We also offer training seminars through sponsoring distributors. These comprehensive seminars include nearly all aspects of the installation from specifications to critical installation details.

The enclosed applicator certificate request form is required to receive an applicator certificate. As a minimum, applicators should receive product literature, but attending a seminar is preferred. Applicators should submit completed forms to their local distributor who may fax it to Master Wall for processing. Upon review and acceptance we will issue an applicator certificate valid for two years.

Training Seminar Topics

- Architectural Specifications
- Architectural Drawings
- The Bidding Process
- Mixing Procedures
- Commercial Systems
- Residential Systems
- Coordination with Trades

Distributor Preparation for a Seminar

- ❑ *A meeting facility.* A conference room in your office, a meeting room at a hotel, or a space in your warehouse.
- ❑ *A space to show slides*
- ❑ *Coffee in the morning and Lunch at noon.* Seminars typically run from 8:30 am to 12:00 noon.
- ❑ *Flip chart or a dry erase board and markers.* For questions and details.

Applicator Certificate Request

I hereby certify that I, or a representative of our company has received the training and/or information noted above that includes architectural specifications, details, and literature for the Master Wall products and systems. Our company hereby states that to the best of our ability we will install the Master Wall Products and Systems as described in the literature provided. If we use any Master Wall Products that have not been addressed in the literature we will contact the Master Wall Distributor to obtain the necessary literature and application instructions.
